2. **INTRODUCTION OF GUESTS (Optional)**
   1. Sean Schroeder, Incoming Transportation Supervisor - Superintendent Owens

   Superintendent Owens introduced CSD’s new Transportation Supervisor, who was in attendance at the meeting.

   “Sean brings a wealth of transportation experience, including school districts, and most recently was the Transportation Supervisor at Reynolds School District. He also has career experience as a bus driver, driver trainer, and was a Training and Safety lead at North Clackamas School District.

   In his spare time, Sean enjoys spending time with his spouse Ashley and their three children. This includes watching football, building forts, playing Pokemon or Xbox and the occasional princess tea party with his daughter.

   Sean is a couple of weeks into the role. His leadership experience and background in school district transportation is highly valuable, and we’re glad he is joining our team.

   Mr. Schroeder expressed excitement about joining Centennial, and shared that he’s already working with Student Services Director, Denise Wright on Covid-19 issues and looking forward to what the year brings.
Director of Business and Operations, Paul Southerton, said Sean has hit the ground running, and has a participatory leadership style that works well with everyone in transportation. Having him on board, said Southerton, means great things for Centennial going forward.

Board members also stated their pleasure in having such an experienced and skilled leader as head of Transportation.

3. **APPROVAL OF MINUTES**
   1. May 5, 2021 REVISED Board Meeting Minutes - Vice-Chair Fuller

   Director Shields asked for a slight modification to a sentence in page four when discussing new public participation law going into effect on January 1, 2022. She wanted the phrase changed from a more “robust public input” to “improved public access”. Both Directors Shields and Andrews said there was an omission in the Good of the Order section. Both Chair Curry and Vice-Chair Fuller agreed to be part of the Multnomah School Board Equity Team.

Secretary Jordan summarized the one comment, saying a student at Centennial High School had concerns about the requirement for masks at indoor sporting events. The student asked to speak at the meeting. Current procedures for comments to the board do not allow for in-person comments, so the student was not allowed to speak at the meeting. All Directors were under the impression that the student would speak.

Input from students, families and educators played a part in the plan for using the SIA dollars. Their feedback included more teacher training for working with diverse students, bilingual students and smaller class sizes, and more attention to equity and cultural responsiveness.

CSD’s SIA plan is also aligned with Destination 2023, the district’s strategic plan.

Director Callahan also provided a summary of actions taken with SSA funds.
Director Callahan also shared next steps with the Board, including:

- Post tonight’s report to the Centennial Website
- Submit the report to the Oregon Department of Education by October 15, 2021
- Continue to align and integrate our SIA and Unfinished Learning Plan with CSD’s Strategic Plan

She then encouraged those in attendance to send their comments, questions and feedback to info@csd28j.org

4. ESSER III Plan: Unfinished Learning Plan - Director of Business & Operations, Paul Southerton, Director of Curriculum & Student Learning, Maureen Callahan, Superintendent Owens

Director Southerton shared information about Centennial’s Unfinished Learning Plan as part of the Elementary & Secondary School Emergency Relief (ESSER III) Act. ESSER is allocated by the federal government in its overall Covid-19 relief funding package.

ESSER III required a five step plan to be developed by the District.

- **Unfinished Learning & Outcomes**: The focus of tonight’s presentation
- **Community Engagement**: Incorporating SSA Community Engagement Findings & A Staff Advisory Committee which we convened over the past 6 weeks.
- **ESSER III Planning Tool**: Illustrating Where Funds Will be Spent - *Presented to the Board in July/With a Refresher tonight.*
- Development of Our **Safe Return to In-Person Instruction** and Continuity of Services Plan *Presented to the Board and Community in August*
- Complete Plan **Posted to the Centennial Website** *(Due October 20, 2021)*

Centennial will receive a total of $24.85 million through ESSER II & III which is dedicated to supporting safety and students’ needs (academic, social, and emotional).

Through the budget process the board approved the following appropriation of funds:

- $12.4M 21/22 Academic School Year
- $12.45M 22/23 Academic School Year

Director Callahan then shared ESSER III’s Overarching Outcomes, which are to:

Address student needs arising from the COVID-19 pandemic and/or to emerge stronger post-pandemic, which may include reopening schools safely, sustaining their safe operation, and addressing students’ academic, social, emotional, and mental health.

Address unfinished learning through the implementation of **evidence-based interventions** and ensure that those interventions respond to **students’ social, emotional, and academic needs** and address the **disproportionate impact of COVID-19 on underserved student subgroups** (each major racial and
ethnic group, children from low-income families, children with disabilities, English learners, gender, migrant students, students experiencing homelessness, and children and youth in foster care).

Community engagement is required to inform use of the funds, and at least 20% of the funds must be used for evidence-based interventions to address unfinished learning.

Director Callahan told the board that outcomes for unfinished learning include developing a responsive plan, grounded in equity to redesign the student learning experience so each student experiences an acceleration to learning based on where they are regardless of whether they were in or out of school.

Strategies for creating these outcomes while building on the successes of the past 18 months are:
  1. Student Learning: Unfinished, NOT lost
  2. Respond to unfinished learning with acceleration
  3. Moving from recovery to renewal over the long-term

“Student Learning: Unfinished, Not Lost shifts the narrative. A responsive system, grounded in equity, meets students where they are and accelerates their learning by building on strengths and needs. Collectively, this means redesigning teaching and learning and reexamining deeply rooted deficit-based thinking.”

The District also has put together an advisory committee made up of teachers, administrators and community partners who will;

a. Connecting the state funding initiatives with Destination 2023

b. Visioning through our equity lens and staying focused on the learner

c. Connecting with families and students through empathy interviews

d. Honoring the previous SIA planning information

e. Analyzing over 80 empathy interviews to identify themes connected and relevant to Destination 2023

f. Performing a match/gap analysis between needs of families and students with current actions and needs

g. Prioritizing existing actions, considering additional actions

Director Callahan then shared CSD’s funding allocation categories for the Unfinished Learning Plan, and the District’s next steps.
- Post report on Centennial Website
- Submit report to Oregon Department of Education Wednesday, Oct. 20, 2021
- Continue to align and integrate our SIA and Unfinished Learning Plan with our strategic plan

- Please send additional comments and further feedback or questions to: info@csd28j.org
