Unfinished Learning Plan
As part of the Elementary & Secondary School Emergency Relief Funds (ESSER III)
USED requires that each district develop a high-quality plan for the use of ESSER III funds to:

- Provide a safe return to in-person instruction and
- Focus on meeting student’s academic, social, emotional, and mental health needs.

Address student needs arising from the COVID-19 pandemic and/or to emerge stronger post-pandemic, which may include reopening schools safely, sustaining their safe operation, and addressing students’ academic, social, emotional, and mental health.

Address unfinished learning through the implementation of evidence-based interventions and ensure that those interventions respond to students’ social, emotional, and academic needs and address the disproportionate impact of COVID-19 on under served student subgroups (each major racial and ethnic group, children from low-income families, children with disabilities, English learners, gender, migrant students, students experiencing homelessness, and children and youth in foster care).
USED (United States Education Department) requires:

1. **Meaningful community engagement** to inform the use of funds. Includes a focus on supporting students disproportionately impacted by the pandemic.

2. **District use of funds to address the impact.** At least 20% of funds used for evidence-based interventions to address unfinished learning.

ODE (Oregon Department of Education) expects that plans will continue to evolve over time.

Questions to address through the plan development.

- What are your student needs?
- How are you incorporating new information with students returning and conditions changing?
- How are you investing to meet student needs?
- How will your investments evolve with new information?
There are 3 parts that make up the district planning requirements for ESSER III.

The parts are connected to create efficiency by leveraging, not duplicating, existing work.

Overall Unfinished Learning Outcomes

Promoting responsive systems (develop a plan) grounded in equity to redesign student learning experience so each student experiences an acceleration to learning based on where they are regardless of in/out of school

Identify strategies focused in these 3 areas while building on successes of last 18 months:

1) Student Learning: Unfinished, NOT lost
2) Respond to unfinished learning with acceleration
3) Moving from recovery to renewal over the long term

Create a plan that meets ODE requirements to address unfinished learning (due October 20, 2021)
“Student Learning: Unfinished, Not Lost shifts the narrative. A responsive system, grounded in equity, meets students where they are and accelerates their learning by building on strengths and needs. Collectively, this means redesigning teaching and learning and reexamining deeply rooted deficit-based thinking.”

What does success look like for *EVERY* Centennial student?

The Advisory Committee engaged in the following:

a. Connecting the state funding initiatives with Destination 2023
b. Visioning through our equity lens and staying focused on the learner
c. Connecting with families and students through empathy interviews
d. Honoring the previous SIA planning information
e. Analyzing over 80 empathy interviews to identify themes connected and relevant to Destination 2023
f. Performing a match/gap analysis between needs of families and students with current actions and needs
g. Prioritizing existing actions, considering additional actions
Planning Questions to Reflect Upon

- What are your student needs?
- How are you incorporating new information with students returning and conditions changing?
- How are you investing to meet student needs?
- How will your investments evolve with new information?
