

FROM THE PRINCIPAL

Dear Parents and Community Members,

This annual report card, issued by the Oregon Department of Education, offers a comprehensive picture of what Butler Creek Elementary School offers and how our students performed during the 2015-16 school year. We are proud to serve our community and are committed towards continual improvement towards our mission to prepare well-educated, respectful students who make meaningful contributions to their global community.

At Butler Creek, teachers work in teams to ensure that students are given high quality instruction and that their progress is monitored on a regular basis. We are focused on developing a rigorous academic program, utilizing the Common Core State Standards in English Language Arts and Mathematics. In addition, Butler Creek has a strong school culture that builds positive relationships with our students and families.

The percentage of students who meet state standards is an area for growth at Butler Creek. This past year, the percentage meeting standards

in English Language Arts and Mathematics was above the state average in nearly every grade level. We continue to want to increase our growth each year. We will address these needs by continued implementation of the Common Core State Standards and providing differentiated instruction to meet the needs of each and every student. We look forward to the academic achievement and growth with your child as we partner with you in the coming year. You can help support your child's success by monitoring your child's homework and attendance, attending parent-teacher conferences, reading with your child every night, and by letting us know how we can better support student success.

Thank you,

Principal | Andrea Sande
